# COMBS

Good grooming is not only about beauty,  
but also about good health.

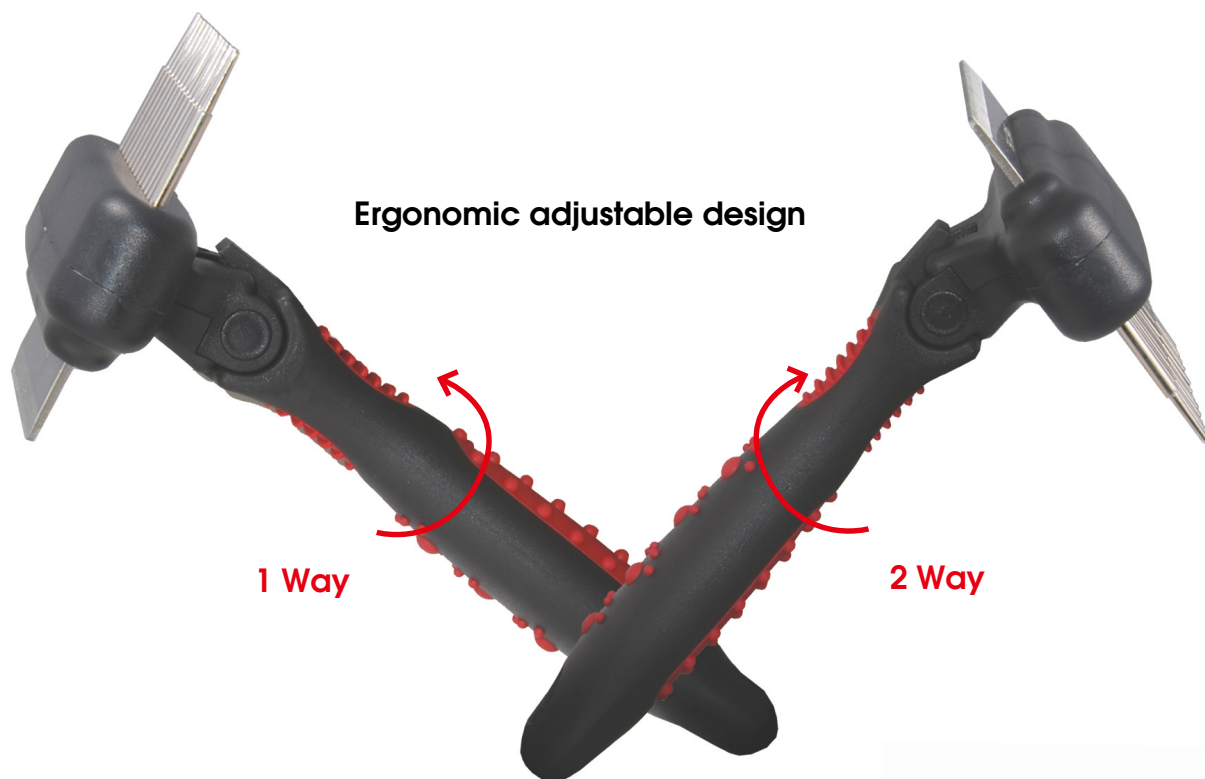

## Adjustable Combination Rake

An all-in-one grooming tool for removing mats and tangles and the progressive build-up of dead hair and undercoat. Ergonomic reversible design combines flexible pin rake with micro-fine deshedding blade, to restore perfect coat condition whilst ensuring a comfortable and pleasant grooming experience.

## Tick Remover

Indispensable grooming tool to remove ticks. It features a stainless-steel wire loop with ergonomic handle for easy to use. tool. Idea for dogs and cats.

### Instructions:

1. Brush the hair back to reveal the tick.
2. Place the tool on the dog's skin, with the largest part of the wire loop directly over the tick.
3. Slowly, but firmly, pull the tool ensuring the tick is trapped in the smaller part of the wire loop.

Item NO.	Description	LxW (cm)
1 24EAV	Tick remover	9.1x2.2x1.5

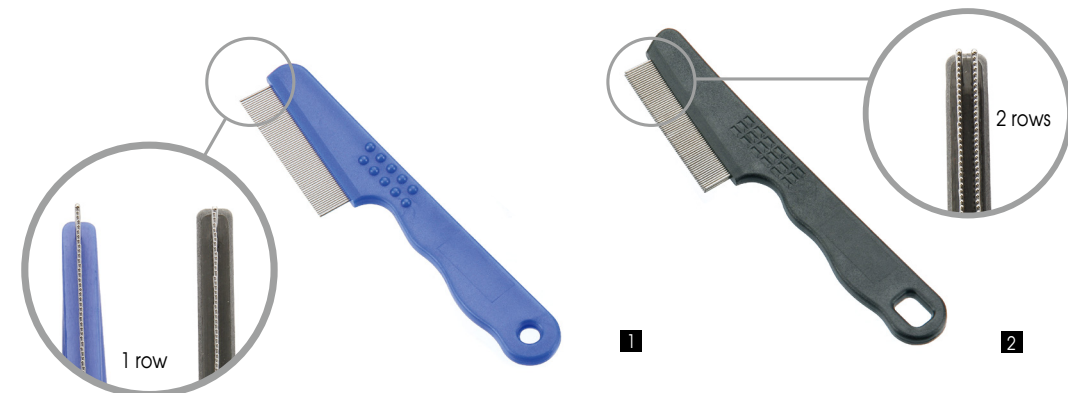

## Flea Comb

Flea combs eliminate fleas and their eggs easily. Before using this comb, groom your pet to remove any knots or tangles. Pay particular attention to areas around the ears, nape of neck, and base of tail. Between strokes, dip the comb into a cup of water with mild detergent to kill the fleas left on the comb.

## Untangle Combs Stainless-steel pins

Designed to remove tangles and mats. Two rows of tapered spring tempered stainless steel teeth set into handle for the removal of stubborn, troublesome snarls. Quality features include a comfortable, easy-to-grip handle, curved, narrow alignment of teeth for hard-to-reach areas.

These pins are thickened for dealing with tough mats.

Item NO.	Description	LxWxD (cm)	Teeth Lng. (cm)
1	23EC11DA V-type 2-row pins (11+11 pins)	16.8x6.0x5.5	2.4
2	23ED32TA 3-row pins (11+10+11 pins)	15.6x6.2x5.5	2.4

## Undercoat Rakes

Rake combs are specifically designed to remove mats in long and curly coats. These tools break up matted hair with angled teeth and work best in conjunction with a spray or liquid detangling product. Remove undercoat and reduce shedding with these ergonomically designed tools. Non-slip handle with T-shape design greatly reduces strain and fatigue on the hand and wrist. Electro-coating pins glide smoothly through the coat. Double row undercoat rake works great on double-coated breeds.

## Double Sided Flex Slicker Brushes Stainless-steel Pins

Double Sided Flex Slicker Brushes feature medium firm stainless steel angled pins on both sides. The head flexes to conform to the special contours of your pet to gently remove tangles and loose hair from the inside of the legs, tail, head and other sensitive areas. Extra-long stainless steel pins penetrate deep into the coat to remove loose undercoat. The soft pins are perfect for light jobs. Firm pins work through mild mats. Firm pins work through mild mats. Non slip grip makes grooming easy. The ergonomic design provides comfort when brushing.

## Replaceable Coat Rakes Stainless-steel Blades

Dramatically reduce undercoat, quickly, easily, and comfortably. The perfect tool for thinning, dematting, and stripping. For best results start with the coarse and medium tools to prepare and demat the coat, then use the fine tools to strip and finish the coat. Achieve a flawless, hand-stripped, smooth look with less time and effort. Great on all types of coats.

15.0x2.6x0.7cm

## Mat Splitters Stainless-steel blades

The mat splitters are light weight and feature ultra sharp blade. To aid in the removal of mats and tangles without any discomfort to your pet. For use on the pet's head, ears, and other less hairy areas.

Item No.	Description
1 57ED01	Anti-slip handle
2 52CE01	Aluminum handle with blade cover

## Shedding Blades

Shedding Blade has rounded, and generously long textured handles, easy to grip for all hand sizes. Coarse-teeth blade edges shed dead or loose hair efficiently. Fine-teeth blade edges remove excessive water from the coat. It will restore your pet's a shiny and lustrous coat.

### FUNCTIONS:

1. Coarse-teeth blade edge sheds dead or loose hair efficiently.
2. Fine-teeth blade edge for finishing.
3. Smooth edge strips excessive water from the coat.

Product Dimensions(L x W x D):  
Large: 32.0 x 8.5 x 3.0 cm

## Shears Stainless-steel Blades

We offer many different types of grooming shears for the dog show exhibitor and the home groomer. Using long straight shears can groom a large dog quickly. Use smaller straight shears when you want lighter weight. Curved shears are used for sculpting or trimming around dog's pads. Thinning shears are used for thinning out the coat rather than generous cutting. Rounded tip shears are used around sensitive areas such as eyes and between pads.
