

## Magic Spring Combs

The combs features a floating spring controlled set of teeth which retract and rotate, yielding to your pet's body contour, and providing optimum control for a through and even application.

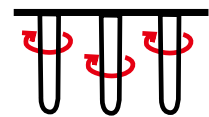

### FEATURES

1. Helps comb the coat thoroughly
2. Teeth can adapt to combing action by rotating up to 360, hence reducing hair pull
3. Penetrates the coat
4. Stimulates skin and hair follicles
5. Wide, comfortable, and anti-slip handle

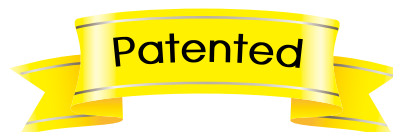

COMBS

flexible teeth

360° rotating teeth
