

Innovation Safety Blades Stainless-steel Blades

Traditional serrated blades are sharp on both the reentrant and salient parts. Newer serrated safety blades, however, reduce the risk of injury and stay sharper for a longer period of time because only the grooves are sharpened.

Item No.	Description	
1 53DAY10C	Y-type,	10 safety blades
2 53DAY12C		12 safety blades
3 53DAL09C	L-type,	9 safety blades
4 53DAL12C		12 safety blades

Product Dimensions(L x W x D):
Y-type: 18.0 x 7.0 x 6.5 cm
L-type: 17.5 x 7.0 x 2.5 cm

STRIPPING TOOLS

Item No.	Description	
1 53DAY10A	Y-type,	10 blades
2 53DAY12A		12 blades
3 53DAL09A	L-type,	9 blades
4 53DAL12A		12 blades
5 53DAN08A	L type, small	8 straight blades
6 53DAN11A		11 straight blades
7 53DAN08B		8 curved blade
8 53DAN11B		11 curved blades

Product Dimensions(L x W x D):
Y-type: 18.0 x 7.0 x 6.5 cm
L-type: 17.5 x 7.0 x 2.5 cm
L-type small: 17.3 x 5.0 x 2.5 cm
