

Stripping Knives Stainless-steel blades

Stripping knives useful for removing undercoat and finish work to help create that "show dog" look. 31- and 41-teeth stripping knives are ideal for heavy-duty jobs. Use 25- and 33-teeth stripping knives work on large areas and overall clean-up on short coat. Use 19-, 20- and 21-teeth stripping knives thumb side is tapered for more exact work and for tight stripping close to the skin. A 28 extra short teeth stripping knife creates a finished look on ears, chest, tail, neck, back and face.

Item No.	Description	LxWxD (cm)
1 54DA1R	19 short teeth	17.0x2.0x1.6
